

THERMOPLASTIC TANKS & EQUIPMENTS

WTC-MACRO manufactures, supplies and installs thermoplastic tanks & equipments

FEATURES

- ❖ High quality tanks & equipments
- ❖ Variability of dimensions, materials and shapes

OPTIONS

- ❖ offered material: PE, PP, PVDF, ABC, PVC
- ❖ vertically & horizontally placed – cylindrical, elliptical, rectangular

BENEFITS

- ✓ Strength, chemical resistivity
- ✓ Big dimensional, material and formative variability
- ✓ Adaption to actual conditions and requirements of usage
- ✓ Application in limited spaces with highly customized possibilities
- ✓ Possibility of random change of geometry by flexibility

APPLICATIONS

- ❑ Various industries & municipal usage
- ❑ As a preparation units of chemical solutions (ex preparation of lime milk, acids, etc.)
- ❑ Treatment tanks in WWTP (ETP), WTP
- ❑ Surface treatment like pre-treatment before painting or galvanic, plating, degreasing, pickling vessels
- ❑ Storage tank for powder medias
- ❑ Storage of chemicals and other medias (feeding hopper, silos)
- ❑ Emergency tanks
